

CFBF Voter Guide

2020 Primary Election • Tuesday, March 3

The California Farm Bureau Federation Board of Directors adopted the following recommendation on the statewide ballot measure that will be before California voters in the March 3 primary election.

	Yes	No
<p>Proposition 13 – School Facility Bonds</p> <p>If passed, the bond measure, Proposition 13, would allow the state to sell \$15 billion in general obligation bonds to fund facility projects at schools, community colleges and universities. The Legislative Analyst's Office estimated the bonds would increase state costs by \$740 million per year for 35 years to repay the bonds, including interest. The bond would allow local school districts to increase borrowing, which could lead to higher property taxes.</p>		X
